C. TERMS AND DEFINITIONS

用語と定義

For the purposes of this document, the terms and definitions included in <FSC-STD-01-002 FSC Glossary of Terms> and the following apply:

本指針では、以下に示されていない限り FSC-STD-01-002 FSC 用語集の用語と定義が優先する:

Annual Administration Fee (AAF): The AAF is the fee charged by FSC Global Development (FSC GD) to accredited certification bodies (CBs) calculated on the basis of the respective certificate holder (CH) portfolio. The purpose of the fee is to support the service provided by FSC GD to uphold the FSC certification scheme.

年間認定管理料 (AAF) : AAF は、認証取得者 (CH) の情報に基づき計算され、FSC Global Development (FSC GD) によって認定認証機関 (CB) に対して請求される年次料金である。AAF の目的は、FSC 認証制度を発展させるために FSC GD が提供するサービスを支えることである。

Annual Administration Fee Class (AAF Class): The AAF Class is a class used to compute the AAF due for Processors and/or Traders holding COC certification. It is determined according to the CH's Forest Products Turnover. The AAF Class can be found by looking up the CH's Forest Products Turnover in the Table 2 in Annex 2.

年間認定管理料区分 (AAF 区分) : AAF 区分は、CoC (加工業者及びまたは仲介・流通業者) 認証の AAF を計算するために使用される区分である。認証取得者の林産物の売上高によって決定される。AAF 区分は、本指針附則 2 の表 2 において認証取得者の林産物の売上高を照合することで確認することができる。

AAF Class Minimum Turnover: The AAF Class Minimum Turnover is the minimum Forest Products Turnover for a CH to qualify for their AAF Class (refer to the calculation steps and Table 2 in Annex 2 for more information).

AAF 区分の下限売上高 : AAF 区分の下限売上高は、認証取得者がその AAF 区分に割振られるための最小の林産物の売上高である (詳細は附則 2 の計算手順と表 2 を参照すること)。

Base Fee: The Base Fee is the minimum AAF charged for a certification in each AAF Class (refer to the calculation steps and Table 2 in Annex 2 for more information).

基本料金 : 基本料金は、各 AAF 区分で認証ごとに請求される最低料金 (AAF) である (詳細は附則 2 の計算手順と表 2 を参照すること)。

Excess Turnover: Excess Turnover is the amount by which the CH's Forest Products Turnover exceeds the AAF Class Minimum Turnover (refer to the calculation steps and Table 2 in Annex 2 for more information).

超過売上高：超過売上高は、認証取得者の林産物の売上高のうち AAF 区分の下限売上高を上回る金額である（詳細は附則 2 の計算手順と表 2 を参照すること）。

FSC Certification Database: The FSC Certification Database is the online database provided and administered by FSC to track FSC certification. Data on individual certification are entered and maintained by the CBs.

FSC 認証データベース：FSC 認証データベースは、FSC 認証を追跡するために FSC によって管理、提供されているオンラインデータベースである。個々の認証データは認証機関によって入力、維持されている。

Forest Products Turnover:

- a) The Revenue of all certified and uncertified forest products; and
- b) the Revenue of all products containing wood or fibre, and all products containing non-timber forest components including forest-based reclaimed materials, regardless of the percentage.

NOTE 1: Forest products refers to wood products, pulp and paper products, and non-timber forest products as per FSC-STD-40-004a.

NOTE 2: Forest Products Turnover does not refer to 100% non-forest products companies might produce.

NOTE 3: Forest Products Turnover does not refer to related services that a CH may provide to another organization. The related services a CH receives under an outsourcing agreement, that contribute to adding value of the product are already inherently included in the Forest Products Turnover figure and do not need to be incorporated in addition to the value.

林産物の売上高：

- a) すべての認証及び非認証林産物から得た収入。及び
- b) 含有率に関係なく、木質回収原材料を含むすべての木材または木質繊維を含む製品及び、非木材林産物を含む製品から得た収入。

NOTE 1: Forest products refers to wood products, pulp and paper products, and non-timber forest products as per FSC-STD-40-004a.

NOTE 2: Forest Products Turnover does not refer to 100% non-forest products that companies might produce.

注 2：林産物の売上高は、企業が生産する可能性のある他の 100%非林産物は対象としない。

NOTE 3: Forest Products Turnover does not refer to related services that a CH may provide to another organization. The related services a CH receives under an outsourcing agreement, that contribute to adding value of the product are already inherently included in the Forest Products Turnover figure and do not need to be incorporated in addition to the value.

注 3：林産物の売上高には、認証取得者が他の組織に提供する可能性がある関連サービスは含まない。外部委託契約の下で認証取得者が受ける関連サービスによって製品に付加価値が付く場合、この付加価値はすでに林産物の売上高に本質的に含まれているため、更に追加で含める必要はない。

Minimum AAF: The Minimum AAF is the minimum amount of AAF that is charged on Processor or Trader certification.

管理： コミュニティが管理区画を協同して積極的に管理をしている（例：共同森林管理計画の下）または、コミュニティが森林の管理を他者（例：資源管理者、請負業者、林産物生産企業）に委託している場合。

コミュニティが他者に森林管理を委託している場合、次の基準 1 及び基準 2 か 3 のどちらかを満たさなければならない：

- 基準 1：コミュニティの代表機関が伐採活動の法的責任を有する。かつ、

For the purposes of this Policy, an individual enterprise that is conducting processing activities

² The Holdridge Life Zones data set is from the International Institute for Applied Systems Analyses (IIASA) in Laxenburg, Austria. The data set shows the Holdridge Life Zones of the World, a combination of climate and vegetation (ecological) types, under current, so-called "normal" climate conditions. 1. GENERAL PRINCIPLES

(認証機関が対象の項目ため翻訳省略)

- 1.1 FSC calculates and invoices CBs as per the information provided by CBs in the FSC Certification Database on the determination dates specified in Table 3, Annex 3.
- 1.2 The AAF invoices are calculated on a quarterly basis by dividing the final result by four. The quarterly calculation allows for the AAF for each quarter to be adjusted based on Terminations, Withdrawals, Transfers, new certification and changes in the certified area, Forest Products Turnover or other necessary information according to Clause 2.4.
- 1.3 AAF invoices are payable within two (2) months of the invoice date. Overdue accounts on AAF invoices are subject to interest as of the due date of the invoice at a rate of 1% per month. The assertion of further damage is not excluded. Invoices paid within their timelines will receive a 2% discount and invoices paid within the same month of the invoice will receive a 5% discount for early payment, as specified in Table 4 Annex 3.

NOTE: If an error in the invoice to CBs is detected and confirmed by FSC after internal review, the adjustment will apply to the next respective AAF invoice (i.e. if an error is detected and confirmed related to the Q3 AAF invoice in August, the adjustment will be applied by FSC to the Q4 AAF invoice issued at the start of November).

- 1.4 In case of suspension, the certification is subject to payment of the AAF.
- 1.5 In case of transfer, the preceding CB shall be responsible to pay the AAF within the quarter where the Transfer is happening. From the following quarter onwards, the succeeding CB will be invoiced. It is the responsibility of both CBs to ensure the information related to the AAF is updated in the FSC Certification Database prior to the AAF determination date.
- 1.6 In case of termination, FSC does not charge AAF from the quarter following the termination. The same applies for withdrawal.

2. OBLIGATIONS FOR CERTIFICATION BODIES

(認証機関が対象の項目ため翻訳省略)

- 2.1 CBs shall pay the AAF as calculated and invoiced by FSC (see Sections 4, 5 and 6). All fees shall be paid free and clear of and without deduction for any and all Taxes. If any Taxes shall be required by law to be deducted from or in respect of any sum payable hereunder to FSC:
 - a) The sum payable by the CB shall be increased as may be necessary so that after making all required deductions FSC shall receive an amount equal to the sum it would have received had no such deductions been made; and
 - b) The CB shall pay the full amount deducted from the AAF to the relevant taxing authority in accordance with applicable law.

NOTE: Payment of the AAF to FSC is independent of collections by CBs from CHs. Failure of a CB to collect fees from CHs does not affect the obligation of payment of the AAF to FSC or for any deviation to the standard payment terms as per section 1.

- 2.2 For all types of FSC certification, CBs shall collect from CHs, verify and enter into the FSC Certification Database the necessary information for calculating the AAF at the following times:
 - a) When registering a certification for the first time; and
 - b) When updating the FSC Certification Database – as a minimum the data shall be verified each calendar year after the audit. See Clause 2.4 for a list of the critical fields required for the AAF calculation and verification.

- 2.3 For all types of multi-site and group certification, in addition to the requirements as in Clause 2.2, CBs shall collect from CHs, verify and enter into the FSC Certification Database the necessary information for calculating the AAF when the group entity/ Central Office reports that a group member or participating site has been added or removed.
- a) CB shall assess the reported aggregated Forest Products Turnover for the whole group or multi-site certification for its overall plausibility. This shall include a plausibility assessment of the individual Forest Products Turnover figures of the sample of Participating Sites audited in the annual evaluation.
 - b) CBs shall verify the Forest Products Turnover for new Participating Sites at the time of the next audit, unless the CB is in doubt about the accuracy and plausibility of any reported changes of the Forest Products Turnover in-between audits.

2.4 Necessary information in the aforementioned context shall be entered by CBs per individual certification in the FSC Certification Database is, but not limited to:

- a) For all types of FSC certification, the type of FSC certification;
- b) For FM, FM/COC, and CW/FM certification, the area data and the category of Forest Management according to Annex 1;
- c) For single and multi-site COC CHs, start and end date of most recently completed fiscal year;

NOTE 1: The CB is required to update the fiscal year data each calendar year. In-between the CB's annual updates, the date of the fiscal period-end as shown in the FSC Certification Database may be more than one year ago.

NOTE 2: Fiscal year is usually 12 months but can be shorter or longer than 12 months.

EXAMPLE: The organization has officially changed its fiscal year end date for its local regulatory filings, such as from December to March, and at the point of AAF data collection, the organization is currently within a one-off transitional fiscal period that is longer than 12 months. The most recent available data is used until newer data becomes available at the point of data collection.

- d) For single and multi-site COC CHs, the Forest Products Turnover;
- e) For single and multi-site COC CHs, the Revenue (unless the exception as per Clause 2.10 applies);
- f) For one-time and multiple projects certified under FSC-STD-40-006, the overall cost of each project that is finalized;
 - i. The CB shall obtain the individual cost for each project.
 - ii. For multiple projects under continuous project certification, aggregated project costs shall be entered in the FSC Certification Database in the field labelled Total Project(s) Cost (USD) in the respective quarter.
 - iii. An excel document showing the following shall be uploaded as an attachment (a predefined template is not provided to CBs for this):
 - a. whether the project is certified individually or under continuous project certification (i.e. multiple projects);
 - b. the total cost for each project in the respective quarter;
 - c. the total AAF (based on the total aggregated project costs) in the respective quarter;
 - d. for multi-sites, a list of the participating sites, specifying the aggregated costs for project certification per legal entity in the respective quarter;
 - e. for groups, a list of the members, specifying the aggregated costs for project certification per legal entity in the respective quarter.

- iv. The Project Cost shall be entered in USD. If the cost is provided in a currency other than USD then the conversion date is the date at the end of the quarter.
 - g) For projects certified under FSC-STD-40-004, the Forest Products Turnover as for other products certified under FSC-STD-40-004;
 - h) For FM, FM/COC, and CW/FM group certification, the number of group members, the area data and the category of Annex 1;
 - i) For COC group certification, the number of group members, the applicable Forest Products Turnover (i.e., for the group as a whole; or for groups with Processors and Traders the aggregated Forest Products Turnover for the respective Processors, as well as Traders), the Revenue and the fiscal year date for the Central Office only;
 - j) In cases where processing facilities have been included in the scope of a joint FM/COC certification, necessary information for these processing facilities is defined as outlined in c) - e) (above).
- 2.5 For a newly founded company that has not yet completed a full fiscal year and therefore cannot provide the required Forest Products Turnover figure to determine the AAF, the CB shall enter USD '100,000' in the Forest Products Turnover field in the FSC Certification Database and leave the Revenue field blank. This shall be done prior to the applicable determination date for the respective quarter as per Annex 3 Table 3. The Forest Products Turnover shall be updated in the following annual audit.
- 2.6 In the case of an existing company that has been purchased by another legal entity and has not yet completed the first fiscal year, CBs shall enter USD '100,000' in the Forest Products Turnover field in the FSC Certification Database and leave the Revenue field blank. This shall be done prior to the applicable determination date for the respective quarter as per Annex 3 Table 3. The Forest Products Turnover shall be updated in the following annual audit.
- 2.7 For newly certified companies CBs shall enter the exact Forest Products Turnover unless Clause 2.5 or Clause 2.6 apply.
- 2.8 CBs shall enter the overall purchasing cost in the Trader Forest Products Turnover field on the FSC Certification Database for the cases where Clause 5.6.1 applies.
- 2.9 If a CB is unable to collect any data according to Clause 2.4 a) to j), the CB shall inform FSC without undue delay.
- 2.10 The CB may waive the requirement to collect and enter the exact Revenue figure into the FSC Certification Database, if there is clear and convincing evidence that the Forest Products Turnover is accurate and has been obtained through a proven reliable process.
- a) Clear and convincing evidence shall be understood in the same way as in <ADVICE-40-004-18 V2-0 Addressing false FSC claims on products/projects containing material from unacceptable sources>.
 - b) The CB shall enter zero '0' if the requirement to enter Revenue figure in the FSC Certification Database is waived.
- 2.11 If the Forest Products Turnover and/or Revenue entered in the FSC Certification Database for a fiscal year turns out to be misstated, in addition to updating the FSC Certification Database, the CB shall inform FSC via email and attach supporting documents without undue delay.
- 2.12 If a CB has detected a wrong data entry in to the FSC Certification Database, the CB shall report such wrong data input to FSC when detected.
- 2.13 To verify the necessary information according to Clause 2.4, the CB should determine their audit procedure for data verification given the specific circumstances of their CHs.
- 2.14 To verify especially the Forest Products Turnover and to reduce the risk of misunderstanding by the CH, CBs may ask CHs the following questions:

- a) Who is the right person to talk to about the Revenue of your company (usually senior management or accounting personnel)?
 - b) What is the organization's actual Revenue?
 - c) Which currency is that in?
 - d) Which financial period was that for? Was that for a full year? What was the period end date?
 - e) Is that Revenue entirely wood fibre products? Do you sell anything that is not wood fibre?
 - f) What is your Forest Products Turnover?
 - g) Does that exclude sales taxes, VAT and any levies?
- 2.15 For CHs where the Revenue is mainly consisting of Forest Products Turnover, the amount declared by the CH should be analysed by referring to the overall Revenue to assess for reasonableness.
- NOTE: If a CH sells almost 100% forest products and therefore the difference between Forest Products Turnover and Revenue is non-material for the AAF, the CB may enter the same figure in the FSC Certification Database for both the Forest Products Turnover and Revenue field. However, a smaller Forest Products Turnover may be entered if this can be reliably determined.
- 2.16 For CHs where the Revenue consists of a mix of products (i.e. forest and non-forest products), the amount declared by the CH should be analysed by referring to the management accounts showing financial general ledger coding and/or other supporting documentation.
- 2.17 For CHs where the Forest Products Turnover generates no Revenue, the amount declared by the CH (in this case the purchasing cost, as per Clause 5.6), should be analysed by referring to the management accounts and/or inventory records and/or external invoices.
- 2.18 The CB shall enter zero '0' if the Forest Products Turnover figure is in fact '0'. Leaving the field blank signals that the data is still to be evaluated and potentially entered later.
- 2.19 The Forest Products Turnover shall be assessed for overall plausibility. For instance, by considering the number of employees, the company size and the volume of wood products sold/purchased.
- 2.20 The CB shall check the converted amount of the Forest Products Turnover if the original currency is not USD. The conversion rate upon entering the data into the FSC Certification Database is the respective rate on the date of the CH's fiscal year-end as per the mid-market rate on the currency converter.
- 2.21 CBs shall not rely on oral or written self-declarations alone. A self-declaration may be used as supporting documentation, however it shall be assessed by the CB for reasonableness, plausibility and, as far as possible, for accuracy.
- NOTE: A Central Office of a COC Multi-Site or Group is not required to collect written self-declarations of their individual sites/group members.
- 2.22 Any formal self-declaration shall:
- a) State that the information is correct to the best of the CH's knowledge;
 - b) Be in writing (and not oral);
 - c) Be personally, or electronically (the threshold of advanced electronic signature according to Article 3 no. 11 and Article 26 eIDAS regulation applies here) signed by an authorized individual (such as a legal representative or a designated accountant).
- 2.23 A signed statement from a reputable professional services firm is acceptable as evidence. The statement shall include the name of the Chartered Accountant or auditor, as well as the organization.

NOTE: In such a case the CB is not required to investigate further the validity of the numbers stated.

2.24 The financial data published by a reputable risk management and scoring company may be used as supporting documentation:

- a) In the case of CHs with a 100% forest-based business where the Revenue reported by a reputable risk management and scoring company represents the Forest Products Turnover.
- b) In the case of CHs with a business that is not 100% forest-based, the Revenue reported by a reputable risk management and scoring company shall be used for the Revenue.

NOTE: If a range for the Forest Products Turnover can be determined from a reputable risk management and scoring company, the upper value is to be used.

2.25 CBs shall store the records of the approach used to calculate Forest Products Turnover, rationale for the approach and details of supporting documentation assessed, including key figures.

NOTE: It is not compulsory for CBs to store a copy of the supporting documentation itself. Examples of supporting documentation for the Forest Products Turnover include sales tax filings, income tax records and filings, accounting records, financial statements, a declaration from an accountancy firm and management accounts showing financial general ledger coding.

2.26 CBs shall store the records and have them readily accessible for a period of at least ten (10) years starting with the next calendar year after which the records have been created. FSC and/or ASI may request to view such information.

2.27 CBs shall ensure compliance to data protection regulations wherever applicable and establish a procedure as per Clause 2.4.2 of <FSC-STD-20-001 V4-0 General requirements for FSC accredited certification bodies> to “define the controls needed for the identification, transport, transmission, storage, protection, retrieval and disposition of its records related to the implementation of FSC requirements, including controls to safeguard confidentiality”.

NOTE: FSC adheres to General Data Protection Regulation (GDPR) regulations and any data stored by FSC (including the Forest Products Turnover and Revenue figures) is handled in a compliant manner.

2.28 In case of a Transfer, the previous CB audit report should be used to aid the validation of any changes in the necessary information according to Clause 2.4.

3. Consequences for non-conformity

(認証機関が対象の項目ため翻訳省略)

3.1 In the case that a CB does not update the FSC Certification Database according to Section 2, FSC will calculate the AAF for the respective CH in the portfolio of the CB by using the total Revenue or the mid-point of one AAF Class higher.

3.2 In cases where the reported Forest Products Turnover is later changed to a higher figure (e.g. as a result of a validation during an audit), FSC may choose to charge the additional AAF if the new Forest Products Turnover is at least USD 10,000 higher than the previous one. FSC will clearly present the additional charge in the invoice provided to CBs, as well as the supporting document showing the breakdown. This will be communicated and invoiced in the following quarterly invoice; the determination dates are presented in Annex 3.

3.3 FSC reserves the right to charge interest at a rate of 1% per month for additional charges levied as specified in Clause 3.2.

3.4 If FSC detects the entry of wrong Forest Products Turnover to FSC's disadvantage, FSC reserves the right to charge the additional AAF or to claim further damages that FSC may have suffered because of the CB's wrong data input.

3.5 In cases where the reported Forest Products Turnover is later changed to a lower figure, FSC will not issue credit notes.

4. Calculating the AAF for Forest Management (FM), Forest Management/ Chain of Custody (FM/COC) and Controlled Wood/Forest Management (CW/FM) certification FM、FM/COC 及び CW/FM 認証の AAF 計算

4.1 Calculation of the AAF for FM, FM/COC and CW/FM certification utilizes 7 different categories reflecting forest type³, management objectives, productivity and scale. A fixed rate of USD 10 is generated by each certification and an additional per hectare fee is calculated on top of this rate (see Table 1 in Annex 1).

FM、FM/COC、CW/FM 認証の AAF 計算には、森林タイプ³、管理目的、生産性、規模に応じた 7 つのカテゴリーを用いる。認証ごとに固定料金として 10US ドルが発生し、これに加えてヘクタールごとの追加料金が計算される（附則 1 の表 1 参照）。

NOTE 1: Different per hectare rates are used for the different categories of Forest Management.

注 1：森林管理カテゴリーごとに異なるヘクタール当たりのレートが使用される。

NOTE 2: Certification where all Management Units within the scope qualify as SLIMF and/or Community Forest is completely free of charge, i.e. their area is not included in the per ha calculation and no fixed fee per certification rate is applied.

注 2：すべての管理区画が SLIMF またはコミュニティフォレストリー資格を完全に満たす認証には料金は発生しない。つまり、ヘクタール当たりの料金も認証ごとの固定料金もかからない。

4.2 In cases where processing facilities have exceptionally been included in the scope of a joint FM/COC certification according to INT-STD-20-007_19, a separate AAF for the processing facility is calculated according to the COC fee structure in Clause 5.2, referring to Table 2 for the respective fees for Processors.

INT-STD-20-007_19 に従い、FM/CoC 認証範囲に加工施設が例外的に含まれている場合、加工施設には別途 5.2 項の CoC 料金体系に基づいて AAF を計算しなければならない。加工業者の料金については表 2 を参照すること。

4.3 For the calculation of the AAF, CBs can consider Conservation zones and protection areas that are part of larger Management Units in the category of Natural Forests - Conservation Purposes. The productive areas of such Management Units under economic and/or commercial use are included in the relevant forest type AAF category.

AAF の計算の際、認証機関は大規模管理区画の一部をなす保全林地域及び保護区を「自然林－保全目的」のカテゴリーとして扱える。同管理区画の経済目的/商業目的の生産林地域は、適当な森林タイプの AAF カテゴリーに含まれる。

4.4 For group FM, FM/COC and CW/FM certification, the AAF is based on two components:

³ The relevant forest management category for each certified Management Unit needs to be determined and each certification needs to be classified into one of these categories, by the CBs. See Section C, above, for more information on definitions.
認証機関によって、FM 認証取得者ごとに適当な森林管理カテゴリーが決定され、各認証は、これらのカテゴリーのいずれかに分類されなければならない。定義についての詳細は上記セクション E を参照。

グループ FM、FM/CoC 及び CW/FM 認証の AAF は以下の 2 つの要素から成る：

- a) A per hectare fee based on the sum of individual AAF calculated for each group member according to its corresponding category of Forest Management (see Table 1 in Annex 1). Management Units qualifying as SLIMF or Community Forest are free of charge, i.e. the area will not be included in the per ha calculation.

グループメンバーごとに該当する森林管理カテゴリーに基づき計算されたヘクタールごとの料金。SLIMF またはコミュニティフォレストの資格を満たす管理区画には料金はかからない。つまりこのような森林の面積はヘクタールごとの計算には含まれない。

- b) A USD 10 fixed fee per certification. Group certification where all Management Units within the scope qualify as SLIMF and/or Community Forest is completely free of charge.

認証ごとの固定料金である 10US ドル。すべての管理区画が SLIMF 及び/またはコミュニティフォレストリー資格を満たすグループメンバーのみで構成される認証の場合、AAF は全くかからない。

5. Calculating the AAF for Chain of Custody (COC) COC 認証の AAF 計算

5.1 General principles 一般原則

- 5.1.1 Calculation of the AAF for COC certification is based on the Forest Products Turnover.

5.2 AAF calculation for Processing Enterprises/Processors (single and multi-site certification) 加工事業体/加工業者（単独及びマルチサイト認証）の AAF 計算

- 5.2.1 For single and multi-site Processors, a fee is calculated based on the aggregated Forest Products Turnover of the site(s) included in the scope of certification according to the steps set out in Annex 2.

単独及びマルチサイト加工業者の料金は附則 2 に示されている手順に従い、認証範囲に含まれるすべてのサイトの林産物の売上高の合計を基に計算される。

5.3 AAF calculation for Traders (single and multi-site certification) 仲介・流通業者（単独及びマルチサイト認証）の AAF 計算

- 5.3.1 For single and multi-site Traders, a fee is calculated based on the aggregated Forest Products Turnover of the site(s) included in the scope of certification according to the steps set out in Annex 2.

単独及びマルチサイト仲介・流通業者の料金は附則 2 に示されている手順に従い、認証範囲に含まれるすべてのサイトの林産物の売上高の合計を基に計算される。

5.4 Group COC certification

グループ CoC 認証

5.4.1 Group COC certification including only Processors is charged an AAF based on two components:
加工業者のみから成るグループ CoC 認証の AAF は、以下の 2 つの要素に基づき請求される：

- a) An AAF corresponding to the aggregated Forest Products Turnover of all members, as calculated for single site COC CHs according to 5.2.1. This AAF is subject to the Minimum AAF for COC certification specified in Annex 2.

すべてのグループメンバーの林産物の売上高の合計を用いて、5.2.1 項に従い計算された単独 CoC 認証の AAF。この AAF は附則 2 で定められている CoC 認証の最低 AAF の対象となる。

- b) A fixed fee of USD 20 per year for each group member.

グループメンバーごとに毎年 20US ドルの固定料金。

5.4.2 Group COC certification including only Traders is charged an AAF based on two components:

仲介・流通業者のみから成るグループ CoC 認証の AAF は、以下の 2 つの要素に基づき請求される：

- a) An AAF corresponding to the aggregated Forest Products Turnover of all members, as calculated for single Trader certification according to Clause 5.3.1. This AAF is subject to the Minimum AAF for COC certification specified in Annex 2.

すべてのグループメンバーの林産物の売上高の合計を用いて、5.3.1 項に従い計算された単独仲介・流通業者認証の AAF。この AAF は附則 2 で定められている CoC 認証の最低 AAF の対象となる。

- b) A fixed fee of USD 20 per year for each group member.

5.4.3 For group COC certification including both Traders and Processors in the scope, an AAF is charged based on two components:

認証範囲に仲介・流通業者と加工業者の両方を含むグループ CoC 認証の AAF は、以下の 2 つの要素に基づき請求される：

- a) An AAF corresponding to the aggregated Forest Products Turnover of all Processing Enterprises in the group (calculated as described in Clause 5.2 above), plus a fee corresponding to the aggregated Forest Products Turnover of all Traders in the group (calculated as described in Clause 5.3 above). The corresponding steps and Table 2 in Annex 2 are used. This AAF is subject to the Minimum AAF for COC certification specified in Annex 2, with the Minimum AAF applied only if the AAF due on the Processors' aggregated Forest Products Turnover plus the AAF due on the Traders' aggregated Forest Products Turnover is less than the stated Minimum AAF.

グループ内のすべての加工事業体の林産物の売上高の合計に応じた AAF（上記 5.2 項に示されている通りに計算）及び、グループ内のすべての仲介・流通業者の林産物の売上高の合計に応じた料金（上記 5.3 項に示されている通りに計算）の合計。附則 2 の対応する手順と表 2 が使用されなければならない。この AAF は附則 2 で定められている CoC 認証の最低 AAF の対象となる。最低 AAF は、加工業者の林産物の売上高の合計に基づく AAF と仲介・流通

業者の林産物の売上高の合計に基づく AAF の合計が示されている最低 AAF を下回る場合に適用される。

- b) A fixed fee of USD 20 per year for each group member.

グループメンバーごとに毎年 20US ドルの固定料金。

5.5 AAF calculation for projects プロジェクトの AAF 計算

- 5.5.1 The AAF for one-time projects certified under <FSC-STD-40-006 FSC Standard for Project Certification> is charged on a per-project-basis and follows the same fee schedule as the AAF for single site Traders, with the overall cost of each project being considered instead of the Forest Products Turnover.

FSC-STD-40-006 に基づきで認証された一度限りのプロジェクト認証の AAF は、プロジェクトごとに請求され、単独仲介・流通業者の AAF と同じ料金体系が適用される。この際、林産物の売上高の代わりに、各プロジェクトの全体費用を用いる。

- 5.5.2 For multiple projects under continuous project certification certified under <FSC-STD-40-006 FSC Standard for Project Certification>, the aggregated overall costs are used to calculate the AAF in the respective quarter. The AAF follows the same fee schedule as the AAF for single site Traders.

FSC-STD-40-006 に基づき取得した連続プロジェクト認証の下の複数プロジェクトの場合、対象四半期に全体費用の合計を用いて AAF が計算される。AAF は、単独仲介・流通業者の料金体系を同じものに従う。

NOTE: The AAF for one-time and multiple projects is due only once for each project, in the quarter following the registration in the FSC Certification Database.

注：一度限り及び複数プロジェクトの AAF は、プロジェクトごとに一度だけ、FSC 認証データベースにプロジェクトが登録された翌四半期に支払期限を迎える。

- 5.5.3 For projects certified under <FSC-STD-40-004 Chain of Custody Certification>, the Forest Products Turnover is used to calculate the AAF. This includes all projects independent of whether a project claim is made or not.

FSC-STD-40-004 に基づき認証されたプロジェクトの場合、林産物の売上高を用いて AAF が計算される。これはプロジェクト表示がされるかどうかに関わらず、すべてのプロジェクトが対象となる。

5.6 AAF calculation for COC CH that do not have a Forest Products Turnover 林産物の売上高が存在しない CoC 認証取得者の AAF 計算

- 5.6.1 COC CHs that do not sell certified material or products (e.g. free given away of certified catalogues and certified packaging for products they sell) do not have a Forest Products Turnover to base the AAF calculation on according to Clause 5.1. AAF for such CHs is calculated based on the annual overall purchasing cost of certified material and products instead of Forest Products Turnover and it follows the same fee schedule as the AAF for single site Traders.

認証原材料または製品の販売をしない CoC 認証取得者（例：認証カタログの無料配布、販売する製品に使用している認証パッケージなど）は、5.1 項に従って AAF 計算をするための林産物の売上高が存在しない。このような認証取得者の AAF は、林産物の売上高の代わりに、認証原材

料及び製品の購入費用の年間合計額に基づいて計算される。この際、AAF は、単独仲介・流通業者の料金体系を同じものに従う。

NOTE: The cost of certified material and products include the cost of FSC Controlled Wood material and products.

注：認証原材料及び製品の購入費用には、FSC 管理木材の原材料及び製品の購入費用も含む。

6. Invoicing and payment

(認証機関が対象の項目ため翻訳省略)

CBs to CHs

- 6.1 CBs should embed the AAF into their own systems in order to minimize administrative costs.
- 6.2 CBs shall be responsible for their own invoicing arrangements and collections independent of FSC.
- 6.3 CBs shall address the queries and disputes from CHs related to invoicing directly. If a CH feels a CB has not addressed their queries to a satisfactory level, the CH shall follow the CB's dispute resolution procedure.

NOTE 1: The CBs may contact FSC for enquiries related to the AAF Policy by following <PSU-PRO-10-201 PSU Enquiry Procedure>.

NOTE 2: If the CH believes all options with the CB have been exhausted, the CH may file a complaint against a CB with ASI according to ASI-PRO-20-104 Complaints Procedure.

- 6.4 CBs shall identify the AAF on their invoices to CHs as calculated for that CH according to this policy. Any additional fees, rates, conversions or charges shall be presented separately from the AAF.
- 6.5 If CBs are sending out invoices to their CHs in a currency other than USD, they shall apply the conversion mid-market rate at the respective issue date of the invoice. CBs should use the currency converter provided by OANDA (www.oanda.com) for this calculation. If there is a small difference depending on the day the conversion is carried out, even though the fiscal year is correctly selected, CBs shall enter the figure that is first encountered on the currency converter. Exchange rate variations of <0.1% are considered immaterial and are acceptable for verification purposes.
- 6.6 If using OANDA, CBs should select the currency and dates from the following page: <https://www1.oanda.com/currency/converter/>.

NOTE: There is no need for CBs to try to access other areas of the OANDA website regarding historical rates where premium rated data is provided and therefore a payment to access this is required. For the purposes of the AAF, using the regular currency converter page suffices.

- 6.7 If it is not possible to access OANDA in a specific country due to internet restrictions, the figure from the National Bank may instead be used. For example, for Chinese CHs, the following website shall be used: <http://www.safe.gov.cn/safe/rmbhlzjj/index.html>

7. Prevailing clause

(認証機関が対象の項目ため翻訳省略)

- 7.1 In case there is any conflict between this AAF Policy and other FSC normative requirements or FSC Certification Database requirements, the provisions in this policy shall prevail.

Annex 2 AAF Calculation Tables for COC certification

附則 2 CoC 認証の AAF 計算表

1. The following steps and table shall be applicable to the determination of AAF chargeable on COC certification (for single site certification omit steps a and b):

CoC 認証に課される AAF の決定には、以下の手順と表を使用しなければならない（単独認証の場合は a と b のステップは省略）：

- a) Determine the exact Forest Products Turnover of each individual site.

各サイトの林産物の売上高を特定する

- b) Calculate the aggregated Forest Products Turnover for all sites by adding together the values in step a.

ステップ a の各値を足し合わせることですべてのサイトの林産物の売上高の合計を計算する

- c) Look up the AAF Class and AAF Class Minimum Turnover in Table 2 below, according to the Forest Products Turnover (Column 2). For example, AAF Class Minimum Turnover for Class 1 is '0', for Class 2 is 1 Million USD and so on.

下記の表 2 にて、林産物の売上高（2 列目）に応じた AAF 区分と AAF 区分の下限売上高を確認する。例えば、区分 1 の下限売上高は 0 であり、区分 2 の下限売上高は 100 万 US ドルである

- d) Derive the Excess Turnover as follows:

超過売上高を以下の式に基づき算出する：

$$\text{Excess Turnover} = \text{Forest Products Turnover} - \text{AAF Class Minimum Turnover}$$

$$\text{超過売上高} = \text{林産物の売上高} - \text{AAF 区分の下限売上高}$$

- e) Look up the Base Fee and Variable Fee in Table 2 below according to whether the certification is for a Processor or Trader.

下記の表 2 にて、認証が加工業者または仲介・流通業者であるかに従い、基本料金と変動料金を確認する

- f) Use the Base Fee, Variable Fee and Excess Turnover values to calculate the final AAF using the following formula:

基本料金、変動料金、そして超過売上高を用いて、以下の式に基づき最終的な AAF を計算する：

$$\text{AAF} = \text{Base Fee} + \left(\frac{\text{Excess Turnover}}{\$1,000,000} \times \text{Variable Fee} \right)$$
$$\text{AAF} = \text{基本料金} + \left[\frac{\text{超過料金}}{\$1,000,000} \times \text{変動料金} \right]$$

NOTE: The value of \$1,000,000 in the formula is a fixed number applicable to all AAF Classes and is not linked to the AAF Class Minimum Turnover.

注：式の中の \$1,000,000 の値は、AAF 区分の下限売上高とは紐づいておらず、すべての AAF 区分に適用される固定値である。

- g) Round up the final AAF to the nearest whole number (e.g. 99.20 USD to 100 USD). If this final amount is below the Minimum AAF specified below in Clause 2 then the Minimum AAF figure will be charged.

最終的な AAF は、整数に繰り上げる（例：99.20USD は 100USD にする）。この最終的な料金が以下 2 項に示されている最低 AAF を下回る場合は、最低 AAF が課される。

表 2. 加工業者及び仲介・流通業者の AAF (US ドル)。変動料金は、各区分の下限売上高を超えた林産物の売上高 100 万 US ドル毎に課せられる。

Column 1 1 列目	Column 2 2 列目	Column 3 3 列目	Column 4 4 列目	Column 5 5 列目	Column 6 6 列目
Class 区分	Forest Products Turnover 林産物の売上高	Processor Base (USD) 加工業者 基本料金 (US ドル)	Processor Variable (USD) 加工業者 変動料金 (US ドル)	Trader Base (USD) 仲介・流通 業者 基本料 金 (US ド ル)	Trader Variable (USD) 仲介・流通業 者 変動料金 (US ドル)
Class 1 区分 1	0 – 1 Million	0.00	618.18	0.00	185.45
Class 2 区分 2	> 1 – 5 Million	618.50	202.31	185.88	60.70
Class 3 区分 3	> 5 – 25 Million	1428.32	84.30	429.37	25.29
Class 4 区分 4	> 25 – 100 Million	3114.26	33.72	935.907	10.12
Class 5 区分 5	> 100 – 500 Million	5643.70	20.23	1695.72	6.07
Class 6 区分 6	> 500 – 2,000 Million	13735.33	16.86	4121.90	5.05
Class 7 区分 7	> 2,000 Million	39024.39	14.05	11703.729	4.22

EXAMPLE: A Processor with a Forest Products Turnover of USD 6,234,567 would fall into AAF Class 3 (USD > 5 – 25 Million) for which the base AAF is USD 1428.32 and the Variable Fee is USD 84.30 per USD million. The final AAF would thus be calculated in two steps as follows:

例：林産物の売上高が 6,234,567US ドルの加工業者は、AAF 区分 3 (USD > 5 – 25 Million) に該当する。この区分の基本料金は 1428.32 US ドルであり、変動料金は 100 万 US ドルごとに 84.30 US ドルである。最終的な AAF は、以下の通り 2 つのステップによって計算される：

$$\text{Excess Turnover} = \$6,234,567 - \$5,000,000 = \$1,234,567$$

$$\text{超過売上高} = \$6,234,567 - \$5,000,000 = \$1,234,567$$

$$\text{AAF} = \$1428.32 + \left(\frac{\$1,234,567}{\$1,000,000} \times \$84.30 \right) = \$1428.32 + \$104.07 = \$1533$$

2. The minimum AAF is USD 91 per year for Processor and Trader certification.
加工業者及び仲介・流通業者の最低 AAF は毎年 91 US ドルである。
